The Afternoon Club is here!

Get your children up, active and creative with the best after-schools club in the country.

Join The Afternoon Club every weekday - at 2pm - for practical, interactive lessons in everything from arts and crafts to science and sport. The educational videos are aimed at primary-aged children and their parents with a new video available on The Afternoon Club website each day.

The initiative complements the BBC's **newly expanded education offering** during this time.

It supports the skills-based curriculum in Northern Ireland alongside the ETI's recommendation for afternoon 'Academic time' including watching an educational programme.

For more information check out this <u>BBC</u> News report about The Afternoon Club.

Find out about other BBC Learning NI project on our <u>website</u> and if you have any questions you can contact us on <u>learningni@bbc.co.uk</u>

We look forward to hearing from you soon.
